Office Action Summary

Art Unit: 3753

This action is responsive to the communication filed October 21, 2003.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Schloss et al teach a fluid brake pressure apparatus including pressure sensors 70, 74, 78, 82, 86, 90, 94, which include sensing chip 98 and diaphragm 122. The base portion 102 is read as pot shaped, and the base 18 is read as a bending resistant element. The chip 98 is connected to the circuit board by conductors 114, which are read as flexible since they are thin metal wires. Schloss et al includes an amplifier 174 and microprocessor 186, which includes an EPROM which in turn includes storage.

Applicant's remarks have been fully considered but are not deemed to be persuasive. Applicant argues that characterizing the shunts 114 as thin requires measurement of the dimension of the drawings and this is insufficient. The argument is unpersuasive because a routineer in the art would not need to measure the drawings to arrive at such a

characterization. Merely viewing the drawings and being familiar with the ubiquitous conductive metal wires used in the industry would lead one skilled in the art to conclude that the shunts 114 are flexible, whether they are characterized as "thin" or not.

Claims 100-101 are rejected under 35 U.S.C. § 103 as being unpatentable over Schloss et al. The use of a plurality of op amps instead of the multiplexer and a single amp is considered an obvious matter of design choice.

Claims 24 and 82-91 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL

ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
